DETAILED ACTION

1. The Amendment filed on October 21, 2002 has been entered. Due to the addition of method claims which were not earlier presented, the following restriction requirement applies.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-3, 5, 13, 16, and 23-26, drawn to an apparatus for holding an item, classified in class 83, subclass 466.
 - II. Claims 27-31, drawn to a method of cutting, classified in class 83, subclass 36.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case, the apparatus as claimed can be used to practiced another and materially different process that does not require positive rotation of the clamp ("capable of" or "can be", e.g., in the apparatus claims is not the same as the positive method step in the process claims).
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3724

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charles Goodman whose telephone number is (703) 308-0501. The examiner can normally be reached on Monday-Thursday between 7:30 AM to 6:00 PM EST.
